# Ultra-Quiet LED Bath Vents

- Efficient ventilation for bathrooms, utility, and laundry rooms.
- Galvanized housing has a plated sound absorbing finish. Designed for ultra low RPM for quiet operation.
- Centrifugal polymeric blower wheel with unique two-way air dissipation for maximum airflow and quiet operation.
- Two-way mounting; 16" or 24" on-center key hole slots.
- Permanently lubricated ball bearing motor, capacitor driven and rated for continuous operation.
- Easily accessible wiring compartment.
- Molded grille with polycarbonate light lens.

## All bath vents feature the following, except as noted on the individual product pages:

- Galvanized housing resists humid conditions & changing attic temperatures, unlike plain steel housing used in many vents.
- Housing has ceiling thickness indicator markings & built-in mounting tabs for quick installation.
- Attractive molded grille with spring clips for smooth fit against the ceiling or wall.
- Dishwasher safe grille for easy homeowner cleaning.
- Easy remove & install motor assembly with keyhole mounting bracket.
- Permanently lubricated motor with plug for quick activations.
- Built-in junction box for easy wiring.
- Molded fan blade—precision balanced for quiet operation.
- Molded duct adaptor with built-in damper.
- Units & service parts are CSA listed.
- All bath vents must be installed according to all applicable state, local and/or NEC codes.

## LED Features:

- State-of-the-art LED light produces 1200 lumens at just 12 watts of power. This is more light than a standard 100w incandescent lamp.
- Polycarbonate diffuser designed to eliminate LED hot spots and provide an even distribution of light.
- 3 year warranty on LED light and driver.
