

QSSI FAMILY OF BRANDS

BUILD AMERICA, BUY AMERICA

We currently provide one of the largest catalogs of BABA (Build America, Buy America) Compliant luminaires in the entire nation. Manufactured in our Wilmington, Delaware location, these fixtures are made in the U.S.A. at an extremely competitive lead time; 6-8 weeks in comparison to the industry standard of 14+ weeks! Our BABA catalog is composed of Post Tops, Bollards, Area lighting, and more.

BUY AMERICA ACT

Our Buy American Act (BAA) Compliant luminaires are warranty-worthy products that have a reputation of providing years' worth of trouble-free service. When you invest in a project, you want partners that hold the same morals and values as you. When you work with QSSI or any of our subsidiaries, you can rest easy knowing you are working with people who share your vision and views.

QUICK SHIP >>>

The QSSI Family of Brands Quick Ship Program is offered with our BAA (Buy American Act) Compliant products. Our six strategically placed manufacturing locations across the U.S.A enable us to deliver 99% of catalog items within three days for a minimum order quantity of ONE item!

OUR HISTORY

QSSI, Inc, established in 1985, is the parent company to exclusive brands that produce prominent fixtures. We are a trusted manufacturer of industry-leading luminaires, poles, and accessories.

& MORE!

MANUFACTURING PROCESS

We proudly control 100% of our manufacturing process. From raw materials to finished goods, we are there every single step of the way. By not relying on outside suppliers, we have a significantly stronger ability to avoid industry shortages and supply chain issues.

Manufacturing capabilities include die casting in aluminum and zinc, sand casting, metal stamping and spinning, plastic injection molding, machining tool and die making, powder painting, PC board assembly, electrical fittings and components.

TENURE OVER TIME.

Excellence is not a plus; it's a standard. The level of effort that goes into every fixture is a testament to our dedication to manufacturing high-quality products provided by a team of experts who care about your project's needs.
