

20' - 50'

Round Tapered Smooth Steel Pole

Poles Series

Specifications and Features:

Shaft

The pole shaft is a one-piece assembly conforming to ASTM A595 Grade A or A572 Grade 55 with a constant linear taper of 0.14 in/ft.

Pole Top

Pole is provided with either a tenon top or drilled for fixture mounting. A removeable pole cap is provided for poles receiving drilling patterns for side-mount luminaire arm assemblies. If purchasing your luminaires from someone other than Atlantic, you must consult the manufacturer for correct tenon size or drill pattern. Other pole top options include pole cap only (PC) or plain top (PL) which is typical when the pole top diameter matches the necessary slip fit dimensions.

Handhole

A reinforced handhole with grounding provision is provided at 1'-6" from the base end of the pole assembly. Each handhole includes an easy to install, self-contained Swing Latch handhole cover assembly. U.S. Patent Swing Latch cover is fabricated from durable polycarbonate/ABS blend plastic. All pole assemblies are provided with a 2.50" x 5.00" rectangular handhole. Handhole dimensions are nominal.

Base Cover

A two-piece full base cover fabricated from ABS plastic is provided with each pole assembly. Atlantic reserves the right to provide a two-piece steel full base cover on some applications depending upon the finish requirement and/or pole base diameter. Nut covers can be substituted on most models. Additional base cover options, including the dart round (DT) cast aluminum cover, are available (adder).

Anchor Bolts

Anchor bolts conform to ASTM F1554 Grade 55 and are provided with two hex nuts and two flat washers. Bolts have an "L" bend on one end and are galvanized a minimum of 12" on the threaded end.

Hardware

All structural fasteners are galvanized high strength carbon steel. All non-structural fasteners are galvanized or zinc-plated carbon steel or stainless steel.

Finish - Super Durable Polyester TGIC Powder Coat

- Standard finishes: high gloss black, textured black, high gloss white, medium bronze, dark bronze, green, gray, silver metallic
- Custom and Marine-grade finishes are available. All RAL colors are available to match (adder).

*EPA calculations allow for 1.3 Gust Factor. If mast or truss arms are to be installed, contact Atlantic for E.P.A. information and recommended shaft length.
 Variations from standard sizes listed above, available upon inquiry at the factory. Satisfactory performance of lighting standards is dependent upon the standard being properly attached to a supporting foundation of adequate design. Atlantic does not design or offer recommendations for foundations.

Please note: Atlantic offers the following information as a guide only and assumes no liability for its use. DO NOT USE THIS CHART AS A GUIDE FOR ANCHOR BOLT INSTALLATION; REQUEST A BASE TEMPLATE BEFORE POURING CONCRETE!
