### Advantages:

- Up to 3,320 lumens
- 16-25 Watt LED Arrays
- Type V Distribution
- Optional Opal LumaLens for soft lighting
- CSA Listed
- 5 Year Limited Warranty

### GRACEFUL LINES, SUPERIOR QUALITY

The 12-foot Allora Light Columns provide contemporary pedestrian lighting. They coordinate with the Allora family of area lighting, bollards, and wall sconces, providing a scalable, uniform appearance across an entire site. Use to accent outdoor spaces and define pedestrian flow in a wide range of applications including retail centers, schools and universities, public transit, park walkways, and plazas. An optional low-glare SoftLED LumaLens offers soft, uniform lighting.

The 16-25 watt LED arrays are available in three color temperatures (3000K, 4000K and 5000K), and produce up to 3,320 delivered lumens. The arrays feature aluminum boards with copper circuits, providing carefully controlled thermal management for long LED lifespans. The Allora Light Column is fabricated with a durable extruded aluminum housing and is finished with a weather-resistant textured powdercoat finish providing years of service. A heavy-duty cast aluminum clamshell base cover hides the mounting hardware and is finished with the same durable finish.
