AIDW5 Orb Advantages:

- Up to 760 lumens
- 10-17 Watt LED Array
- Type V Distribution
- CSA Listed
- 5 Year Limited Warranty

SLEEK DESIGN, SUPERIOR QUALITY

The contemporary-urban inspired Orb wall luminaire provides accent wall wash pattern illumination with a modern flair. It is ideal for Architectural Accent Lighting, creating a visually complementing aesthetic to your exterior façade accompanied with its prolonged LED life. The specially designed 120° and 180° shields transform the Orb into an Up or Down light.

The Orb is available with choice of LED arrays ranging from 10-17 Watts in three color temperatures (3000K, 4000K and 5000K) producing up to 760 delivered lumens. The array features an aluminum board with copper circuits providing carefully controlled thermal management for long LED lifespans. The precision vandal-resistant, UV-stabilized polycarbonate optical lens produces a Type V distribution and protects the internal components. Designed to replace outdated halogen and compact fluorescent systems, with an energy savings of 80% or more versus comparable Metal Halide systems. The Orb's die cast aluminum housing is finished with a weather-resistant textured powdercoat finish for years of service.
