SLEEK DESIGN, SUPERIOR QUALITY

AIPB10Q Bollard Advantages:

- Up to 2,800 lumens
- 10-28 Watt LED Arrays
- Type V Distribution
- Choice of Reflector Cone or Opal LumaLens for Soft Lighting with Uplight Component
- CSA Listed
- 5 Year Limited Warranty

The Hatteras AIPB10Q Post Top Luminaire walkway and area lighting and complements our AIB10 Bollard. Opal LumaLens diffusers offers excellently controlled, uniform lighting. Clear Lens with white cone reflector provide wide spread distribution. Typical applications include pedestrian areas, walkways, and landscape accents.

The AIPB10Q is available with choice of LED arrays ranging from 10-28 watts in three color temperatures (3000K, 4000K and 5000K), producing 500-2,800 delivered lumens. The array features an aluminum board with copper circuits providing carefully controlled thermal management for long LED lifespans. The precision vandal-resistant, UV-stabilized opal polycarbonate optical lens produces a Type V distribution and protects the internal components. Easily replaces 70-100 Watt legacy HID systems, with an energy savings of 80% or more versus comparable Metal Halide systems. The AIPB10Q precision die cast aluminum housing is finished with a weather-resistant textured powdercoat finish for years of service.
